

SUSTAINABILITY

Faze Three Limited is committed toward consistently operating in a manner that minimizes detrimental impacts toward society and environment.

- Providing a safe and healthful workplace, where employees feel their value;
- Having an environmentally sustainable aware culture, where responsibility is assigned and understood;
- Being an environmentally & Socially responsible neighbor in our community;
- Conserving natural resources by reusing, reducing and recycling;
- Using, in our own operations, processes that do not adversely affect the environment as well as society;
- Participating in efforts to improve environmental & Social protection and understanding;
- Taking steps to improve environmental & social performance continually;
- Working with suppliers who promote sound environmental & social practices; and
- Enhancing awareness among our employees, volunteers, and users – educating and motivating them to act in an environmentally & socially responsible manner and promote positive ethical behavior throughout our sphere of influence (i.e. towards the environment, community, customers, employees and investors) toward achieving optimum consumption of resource i.e. energy and water.
- To encourage resource-use efficiency, including sustainable natural resource management, greenhouse gas reduction and sustainable waste management, wherever practicable.

Ensure work performed on our behalf, either directly or indirectly, is performed within the appropriate legal and institutional framework. Maintain a duty to provide decent conditions of work for all employees.

This policy is communicated with all interested parties and all people working for or on behalf of our Faze Three Group.
