**Notes:**

1. An Explanatory Statement pursuant to Section 102 (1) of the Companies Act, 2013 (the “Act”), in respect of business to be transacted at the 38<sup>th</sup> Annual General Meeting (“AGM”), as set out under Item No. 3 above and the relevant details of the Director retiring by rotation as mentioned under Item No. 2 above as required by Regulation 36(3) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“Listing Regulations”) and as required under Secretarial Standards – 2 on General Meetings issued by the Institute of Company Secretaries of India, is annexed thereto.
2. In accordance with the provisions of the Act, read with the Rules made thereunder and General Circular No. 10/2022 dated December 28, 2022, other Circulars issued by the Ministry of Corporate Affairs (“MCA”) from time to time, and Circular No. SEBI/HO/CFD/PoD-2/P/CIR/2023/4 dated January 05, 2023 issued by SEBI (“the Circulars”), companies are allowed to hold AGM through video conference/other audio visual means (“VC/OAVM”) up to September 30, 2023, without the physical presence of members. The AGM of the Company is being held through VC/OAVM, where the Members can attend and participate in the AGM through the provided VC facility. The Company has availed the services of National Securities Depository Limited (NSDL) for voting through remote e-voting, for participation in the AGM through VC/OAVM and e-voting during the AGM. The detailed procedure for participating in the meeting through VC/OAVM is annexed herewith (Serial no. 19).
3. In accordance with the Circulars, the Notice of 38<sup>th</sup> AGM and Annual Report for the financial year 2022-23 are being sent in electronic mode to Members whose e-mail address is registered with the Company or the Depository Participant(s). The Notice of 38<sup>th</sup> AGM along with Annual Report for the financial year 2022-23, is available on the website of the Company at [www.fazethree.com](http://www.fazethree.com), on the website of Stock Exchanges on which the equity shares of the Company are listed i.e. BSE Limited at [www.bseindia.com](http://www.bseindia.com) and National Stock Exchange of India Limited at [www.nseindia.com](http://www.nseindia.com) and on the website of NSDL at [www.evoting.nsd.com](http://www.evoting.nsd.com).
4. As the AGM will be conducted through VC/OAVM, the facility for appointment of proxy by the members is not available for this AGM and hence, the proxy form is not annexed to this Notice. Further, attendance slip including route map is not annexed to this Notice.
5. Members attending the AGM through VC/OAVM shall be counted for the purpose of reckoning the quorum under Section 103 of the Act.
6. Members will be eligible to participate on first come first serve basis, as participation through VC/OAVM is limited and will be closed on expiry of 15 minutes from the scheduled time of the AGM. Members can login and join 15 (fifteen) minutes prior to the scheduled time of the meeting and window for joining shall be kept open till the expiry of 15 (fifteen) minutes after the scheduled time. The members will have to make themselves available at the scheduled time if they wish to attend the meeting.
7. The Register of Members and Share transfer books of the Company will remain closed from Thursday, September 21, 2023 to Friday, September 22, 2023, both days inclusive.
8. The Company has made necessary arrangements for the members to register their e-mail address on temporary basis:

**EXPLANATORY STATEMENT IN TERMS OF SECTION 102 OF THE COMPANIES ACT, 2013.****Item No. 3****Approval of the Material Related Party Transactions**

Pursuant to the Regulation 23 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, ("Listing Regulations"), as amended by the SEBI (Listing Obligations and Disclosure Requirements) (Sixth Amendment) Regulations, 2021, effective April 1, 2022, mandates prior approval of Members of a listed entity by means of an ordinary resolution for all material related party transactions, even if such transactions are in the ordinary course of business and at an arm's length basis. Effective from April 1, 2022, a transaction with a related party shall be considered material, if the transaction(s) to be entered into individually or taken together with previous transactions during a financial year, exceeds INR 1,000 Crore or 10.00% of the annual consolidated turnover of the listed entity as per the last audited financial statements of the listed entity, whichever is lower.

As per the provisions of Section 188 of the Companies Act, 2013 ('Act'), transactions with related parties which are on an arm's length basis and in the ordinary course of business, are exempted from the obligation of obtaining prior approval of Members.

The Company has been entering into certain transactions as mentioned in the table below ("said transactions"), with Faze Three Autofab Limited (FTAL), a related party on mutually agreed terms and conditions. In the upcoming Financial Year (FY) 2024-25, the Company, proposes to enter into certain related party transaction(s) as mentioned below, on mutually agreed terms and conditions, in the ordinary course of business of the Company and on an arm's length basis and the aggregate value of such transaction(s) are expected to cross the applicable materiality thresholds as mentioned hereinabove. The aggregate value of the proposed transactions for FY 2024-25 is upto INR 87.50 crores (excluding applicable taxes). Accordingly, as per the SEBI Listing Regulations, approval of the Members of the Company is being sought for all such transaction(s) proposed to be undertaken by the Company. All the said transactions shall be in the ordinary course of business of the Company and on an arm's length basis.

The Audit Committee has, on the basis of relevant details provided by the management, as required by the law, at its meeting held on August 11, 2023, reviewed and approved the said transaction(s), subject to approval of the Members of the Company, while noting that such transaction(s) shall be on arms' length basis and in the ordinary course of business of the Company.

Accordingly, basis the approval of the Audit Committee, the Board of Directors recommend the Resolution contained in Item No. 3 of the accompanying Notice to the shareholders for approval.

The approval of the Members pursuant to the aforesaid Resolution is being sought for the following related party transactions / contracts/ arrangements / agreements set out in this explanatory statement. In addition to the transactions set out in this explanatory statement, approval of the Members is also being sought for any other transactions between the Company and FTAL for transfer of resources, services and obligations in the ordinary course of business, on arm's length basis and in compliance with applicable laws, as approved by the Audit Committee. The value of such additional transactions is included in the values set out in this explanatory statement.

### Management Discussion and Analysis Report

Management Discussion and Analysis Report for the financial year under review as stipulated in Regulation 34 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

#### ECONOMY AND OUTLOOK

The Global economy considerably slowed down in 2022 relative to 2021. Following a slowdown at the end of 2022, economic activity rebounded in H1 2023. This rebound was driven in part by strong growth in China, as the lifting of COVID-19 restrictions unleashed pent-up demand, though recent indicators suggest that momentum is slowing in China predominantly in Real estate sector companies & youth employment crises, the Chinese yuan also has been weaker in 7.15-30/\$.

Europe showed resilience to the energy price shock stemming from Russia's war against Ukraine. The US economy remains strong, Real consumer spending grew at a solid pace early 2023 however owing to higher interest rates and tighter financial conditions it appears to be moderating. Manufacturing output and real fixed investment has been stable over last year or so. The Labour / Job market remains strong in terms of job openings and wage increases have moderated. In the last 9 months, Crude Oil has remained ~\$75-85 \$ after rising above \$120 in 2022 and core metals too have corrected from their peaks though their current levels are elevated from pre-pandemic era.

Asia (ex-China) is the bright spot, viz India, Vietnam, Indonesia, etc. The demographic dividend, stable governments, China Plus One and positive capital flows aided good economic recovery despite geopolitical issues around the region.

2024 looks promising despite an expectation of recession by global pundits in the next 6-9 months mainly on account of housing / real estate sector which forms major part of US & Chinese economy, withdrawal/reduction of stimulus by G7, relatively higher energy prices & geopolitical challenges. Lastly, the Global economy has sustained a COVID shock, 5%+ USD rates, Semiconductor shortage, Oil price Shock, War, etc. all in the last 3 years yet emerged strong and grown, which reiterates the resilience of the Global economy. Also there has been significant underinvestment in manufacturing ex-China globally over last 15 years, which presents an opportunity of growth for incumbents and fresh investments into productive side of the economy perhaps at the cost of excesses in the tech and consumer side of the economy.

India is set to be the second-fastest growing economy in the G20 in FY 2022-23, despite decelerating global demand and the tightening of monetary policy to manage inflationary pressures. India's economy is likely to post a resilient 6-7% growth in FY24 because of softer global growth and higher interest rates. While the global economy is expected to deaccelerate, however, its growth outlook has improved.

Indian economy is propelled by growth in priority sectors and driven by favourable megatrends, India's manufacturing sector has opened itself into new geographies and segments. Building on the competitive advantage of a skilled workforce and lower cost of labour, the manufacturing sector is also witnessing an increased capex and heightened M&A activity, leading to a surge in manufacturing output and resultant increased contribution to exports.

The Production Linked Incentive (PLI) scheme has been notified for Large Scale Manufacturing in India. The scheme aims to attract large investments in various sectors including electronics, MMF textiles, semiconductors, etc. The positive developments in the manufacturing sector, driven by production capacity expansion, government policy support, heightened M&A activity, and PE/VC-led investment, are creating a robust pipeline for the country's sustained economic growth in the years to come.

## TEXTILE INDUSTRY

The textile industry in India is one of the oldest in the country and is a big one. With hand-woven, hand-spun, and various mills, the textile sector is extremely varied. It is one of the biggest sectors with about 4.5 crore people employed and being second largest sector providing employment. India is leading exporter of textiles and clothing after China. Increased penetration of organized retail, favorable demographics, and rising income level are likely to drive demand for textiles. Superior quality and ample availability of Cotton and Polyester makes companies in India a leader in exports – almost two-third of India’s export of textiles is to US and UK. Indian products have gained a significant market share in global home textiles in the past few years.

India’s textiles industry has a capacity to produce a wide variety of products suitable for different market segments, both within India and across the world.

India holds 5-6% share of the global trade in textiles and apparel, while China has over 40% share. India is one of the largest producers of cotton and jute in the world. India is also the 2nd largest producer of silk in the world and 95% of the world’s hand-woven fabric comes from India. The Indian technical textiles segment holds approximately 5-6% of the global market.

Home textiles are the third largest segment of Indian textile industry after apparels and technical textiles. Bed linen and bath linen are the two largest selling products and together account for two-third of home textile market. Kitchen linens, curtains, upholstery, and rugs / carpets are the other major products in the sector. India is one of the leading exporters of home textile products including bed linen, curtains & drapes, and other home furnishing articles. The market penetration achieved by Indian home textile sector in developed markets is a mark of its quality standards, which is on par with global standards. Development of textile manufacturing infrastructure in the country with various Government initiatives together with a market-friendly regulatory framework has helped in creating a world class textile manufacturing infrastructure.

## FAZE THREE LIMITED – COMPANY OVERVIEW

### Awards and Ratings

- The Company was awarded with Dun & Bradstreet “Business Enterprises of Tomorrow 2022” Business Excellence Awards in Category Mid-Corporate – Textile & Textile Articles on November 29, 2022.
- The Company was recognized as one of the “Best Global Business Category (Mid-Corporates) in India – 2021” by Dun and Bradstreet’s Business Excellence Awards 2021 on November 24, 2021.
- The Company was recognized as one of the leading “Mid-Corporates in India - 2020 “by Dun and Bradstreet’s premier publication released on November 25, 2020.
- The Company was awarded the Dun & Bradstreet - RBL Bank SME Business Excellence Awards 2019 in the Mid- Corporate Segment for excellence in the Textile Sector.
- The Credit Rating of the Company was re-affirmed with revision in outlook to positive 'CARE A-; Positive/CARE A2+ (in September 2022).

### Products

The Company has a diversified product basket which includes cotton and rubber backed bathmats, blankets, durries, throws, hand tufted carpets and rugs made of cotton and wool, cushion covers, curtains as well as poly cotton and cotton mask, table covers, patio mats, seat covers amongst many others under the technical textiles’ ambit.

### Geographic distribution

Majority (~90%) of Revenue is derived from direct exports to organized retail in USA, UK and Europe region, of which USA ranges from 55-65%.

### SWOT ANALYSIS

The core strengths of the Company are its long track record of business with existing customers, in-house design and development pedigree, extensive experience of the management team, global benchmarked Manufacturing facilities / Infrastructure, etc. Diversified product portfolio coupled with established relationships with reputed clients ensuring stable revenue visibility and growth opportunities. The company has significant ability to develop new products and build supply chains for the same within a short period of time. The company undertakes order backed manufacturing only and does direct exports to the customer. Further the Company is long term debt free and has strong capital structure.

The Eureka moment of 2008-09 in demand for Sheets and Towels from India leading to India being a leader today within a decade, is NOW here also for categories other than Sheets and Towels which includes Floor coverings, TOB, window curtains, value added products etc. The Company is well positioned to make most of the products in the said categories which were dominant out of China, estimates suggest about 15-20 times of India over last decade. The giant shift is underway alongside normal growth in coming years. India has level playing field on Manufacturing costs, import tariffs and most importantly Customer Mindset which has changed in fact in India's favour for reasons well known.

The Company is well positioned to cater the increased demand as Company has concluded Expansion at Silvassa factory in April 2022 which will have 3x capacity on existing spare land, under Floor coverings / Rugs segment and Top of Bed / Blankets segment. The Company has also commenced expansion at Handloom Home Textiles division located at Panipat for expanding capacity to 3x from current capacity which is expected to be completed by Mar 2024.

Tangible shift of demand to India from China as elaborated above and transforming consumer spending trends have resulted into higher demand of home textile products.

FY 23 saw part reversal of FY 22 in terms of high costs of cotton, coal, containers and all other key input raw materials while the demand also moderated over FY 22. US retailers guided in April 22 on their goals to reduce inventory levels from over 20% of revenue (including inflation impact) to under 10% revenue. This correction coupled with reduction in various input prices from peak led to moderation in growth versus FY 22. In other words, the sector already went through a recession of its own over last 12-15 months in a bid to correct inventory levels and prices. The coming fiscals look very promising as USA is witnessing on of the strongest jobs market along with rising incomes which is a big blessing. Inflation peak is behind us and despite very high rates, the US economy has held up very well.

The Company has a strong position in Indian textile industry buoyed by strong export demand and readiness to grow quickly owing to expanded capacity available for use, however, the Company faces geographic concentration risk with ~60-70% revenue from USA. The company also faces challenges from significant volatility in raw material prices (eg. Crude prices leading to rise in polyester prices in 2022), foreign exchange fluctuations, etc. Also being relatively export competitive viz. China and other south Asian counterparts require government policies and global FTA's aligned and level playing over long term.

However, the Company has an operational track record of more than three decades (being incorporated in 1985) which indicates its ability to survive economic and business cycles.

#### **INTERNAL CONTROL SYSTEMS AND ITS ADEQUACY**

FTL's internal controls are commensurate with its size and the nature of Company's operations and are working effectively. The affairs of the Company are managed in such a way that there is free flow of information between the management and the same is only communicated on a need to know basis. The Internal controls of the Company are designed in such a way that reasonable assurance with regard to recording and providing reliable financial and operational information, complying with applicable statutes, safeguarding assets from unauthorized use, executing transactions with proper authorization and ensuring compliance of corporate policies is possible.

The Internal Control systems are quarterly assessed by the Audit Committee and the report of the same is submitted to the Board for its review. Our audit committee has concluded that, as of March 31, 2023, our internal financial controls were adequate and operating effectively.

#### **HUMAN RESOURCES/ INDUSTRIAL RELATIONS**

The Company has 8 state-of-the-art manufacturing facilities situated at Dadra and Nagar Haveli, Gujarat, Haryana and Maharashtra in India and employs over 3000 workers directly and indirectly.

The Company is led by an experienced management team with vast domain knowledge. The operations are overlooked by its directors / professional management who are highly qualified and have extensive industry experience. The management is also backed by well-defined second-tier management with designated functional heads for each department. The long standing presence in the industry along with experience of the management has helped the Company to scale up its operations even during Covid times. The Company has continued its investment in Human Resource and Talent acquisition during last year.

The Company continuously taking efforts to provide safe working environment, trainings, strict standards of personal hygiene, necessary infrastructure and equipment across all our operations. We are equally focused on protecting the lives and livelihoods of all our employees. The operations of the Company are conducted in such a manner that it ensures safety and security of all the workers and employees.

## POLLUTION AND ENVIRONMENTAL CONTROLS

The Company endeavors to have minimum impact to the environment with sustainable production methods, use of energy efficient and environment friendly technology, use of recycled and eco-friendly raw materials, etc., Sustainability has always been a culture in the Company which believes in giving back to the environment and the society. It believes that profitability not only depends on the actual profit but also the benefit derived by the community through the activities of the Company.

The Company is moving towards processes and machines which are more sustainable and reduce energy use. The new machines are reviewed from the point of view of energy consumption as well along-with production efficiency and output while making purchase decisions. The newly built expanded capacity at Silvassa consist of lithium Ion MHE (warehouse truck & forklifts) leading to efficiency, energy saving and further additions towards ESG goals. The company has continued its sustainable practice with implementation of Rain Water harvesting system at all the units which reduces dependency on external sources during summer as well as saving the water. The Company has also taken various steps to conserve energy such as Installation of Low Kwh LED lights across the units, installation of transparent sheets in warehouses to receive natural daylight minimizing use of power lights, Electric scooters to transport goods within unit, installation of Turbo ventilators in the roofs of the units.

The Company is continuously looking for ways to replace fossil fuel energy with renewable energy. The Company has already invested and installed a 110-kWh solar power plant at one of its Dadra unit. The company has installed 1.0 MW of Solar Rooftop at Silvassa units in Apr-May 2022, which would generate around 30% of current electricity consumption at said units. Company's finished goods warehouses (capacity upto 130 HQ containers at a time) are operated by fully Electric lithium-ion fleet of forklifts / reach trucks. Apart from being cost effective, it enhances goal & commitment towards ESG. Along with collection and processing, your Company is also progressing towards making plastics packaging circular by eliminating unwanted plastics by moving from Conventional polybag to Recycled polybags as well as ensuring there is 0% plastic wastage at all the units.

All the manufacturing facilities of the Company have requisite permissions and certificates under the pollution and environmental laws of the state. The Company actively participates in the sustainability programs with international standards by adopting strict measures and alternatives to control the negative impact on the environment which includes optimum production methods, use of renewable energy, responsible sourcing, use of recycled materials, zero waste, high health and safety standards, etc., Such efforts by the company are regularly applauded by the customers which help them tick their responsible sourcing commitments.

## OUTLOOK

The Company is looking at pipeline of opportunities in all of our core business categories, the growth potential is immense based on customer's projections subject to one's ability to manufacture, bandwidth across design & development to turnaround faster. The Company is looking at very encouraging feedbacks from customer on our enhanced ability to now deliver larger volumes in our core focus on value added home & technical textiles.

To,  
The Members of  
**Faze Three Limited**  
**CIN: L99999DN1985PLC000197**

I have examined the compliance of conditions of Corporate Governance by Faze Three Limited as stipulated in regulation 34 (3) and Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The compliance of conditions of corporate governance is the responsibility of the management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of conditions of corporate governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In my opinion and to the best of my information and according to the explanations given to me, I certify that the Company has complied with the conditions of corporate governance as stipulated in the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

I further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or the effectiveness with which the management has conducted the affairs of the Company.

## **INDEPENDENT AUDITOR'S REPORT**

**To the Members of Faze three Limited**

**Report on the Audit of the Standalone Financial Statements**

### **Opinion**

We have audited the accompanying standalone financial statements of Faze Three Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2023, and the Statement of Profit and Loss (Including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and profit, other comprehensive income, changes in equity and its cash flows for the year ended on that date.

### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the year ended March 31, 2023. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report.

### **Information Other than the Standalone Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the other information. The other information comprises the Director's report, Management Discussion and Analysis Report and Corporate Governance Report but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

We give in "Annexure A" a detailed description of Auditor's responsibilities for Audit of the Standalone Financial Statements.

## Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books including daily back-up of books of accounts and other books and papers maintained in electronic mode. However, the servers for the back-up of books of account and other books and papers of the company maintained in electronic mode are physically located outside India.
  - (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
  - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act.
  - (e) On the basis of the written representations received from the directors as on March 31, 2023 taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
  - (f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure C".
  - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
    - i. The Company does not have any pending litigations which would impact its financial position.
    - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
    - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
    - iv.
      - (1) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in

any other person(s) or entity(ies), including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(2) The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities (Funding Parties), with the understanding, whether recorded in writing or otherwise, as on the date of this audit report, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(3) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, and according to the information and explanations provided to us by the Management in this regard nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) as provided under (1) and (2) above, contain any material mis-statement.

(v) The interim dividend declared and paid by the Company during the year and until the date of this audit report is in accordance with section 123 of the Companies Act 2013.

(vi) As proviso to rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable for the company only w.e.f. April 1, 2023, reporting under this clause is not applicable.

3. In our opinion, according to information, explanations given to us, the remuneration paid by the Company to its directors is within the limits laid prescribed under Section 197 of the Act and the rules thereunder.

## **ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT ON EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF FAZE THREE LIMITED**

### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Also, there are no previously unrecorded income which has been now recorded in the books of account. Hence, the provision stated in paragraph 3(viii) of the Order is not applicable to the Company.
- ix.
  - (a) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of loans or borrowings or in payment of interest thereon to any lender.
  - (b) According to the information and explanations given to us and on the basis of our audit procedures, we report that the Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
  - (c) In our opinion and according to the information explanation provided to us, no money was raised by way of term loans. Accordingly, the provision stated in paragraph 3(ix)(c) of the Order is not applicable to the Company.
  - (d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the standalone financial statements of the Company, we report that no funds raised on short-term basis have been used for long-term purposes by the Company.

- (e) According to the information explanation given to us and on an overall examination of the standalone financial statements of the Company, we report that the Company has not taken any funds from an any entity or person on account of or to meet the obligations of its subsidiaries.
- (f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries. Hence, reporting under the Clause 3(ix)(f) of the order is not applicable to the Company.
- x.
- (a) In our opinion and according to the information explanation given to us, the Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year. Hence, the provisions stated in paragraph 3 (x)(a) of the Order are not applicable to the Company.
- (b) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully, partly, or optionally convertible debentures during the year. Hence, the provisions stated in paragraph 3 (x)(b) of the Order are not applicable to the Company.
- xi.
- (a) Based on our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we report that no material fraud by the Company nor on the Company has been noticed or reported during the course of our audit.
- (b) We have not come across of any instance of material fraud by the Company or on the Company during the course of audit of the standalone financial statement for the year ended March 31, 2023, accordingly the provisions stated in paragraph (xi)(b) of the Order is not applicable to the Company.
- (c) As represented to us by the Management, there are no whistle-blower complaints received by the Company during the year.
- xii.
- (a) The Company is not a Nidhi Company. Accordingly, the provisions stated in paragraph 3(xii) (a) to (c) of the Order are not applicable to the Company.
- xiii. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Act, where applicable and details of such transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- xiv.
- (a) In our opinion and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.
- (b) We have considered internal audit reports of the Company issued till date, for the period under audit.

- xv. According to the information and explanations given to us, in our opinion, during the year the Company has not entered into non-cash transactions with directors or persons connected with its directors and hence, provisions of Section 192 of the Act are not applicable to Company.
- xvi.
- (a) The Company is not required to be registered under Section 45 IA of the Reserve Bank of India Act, 1934 and accordingly, the provisions stated in paragraph 3 (xvi)(a) of the Order are not applicable to the Company.
- (b) The Company is not required to be registered under Section 45 IA of the Reserve Bank of India Act, 1934 and accordingly, the provisions stated in paragraph 3 (xvi)(b) of the Order are not applicable to the Company.

## **ANNEXURE C TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF FAZE THREE LIMITED**

[Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report of even date to the Members of Faze Three Limited on the Financial Statements for the year ended March 31, 2023]

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

#### **Opinion**

We have audited the internal financial controls with reference to standalone financial statements of Faze Three Limited("the Company") as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2023, based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI) (the "Guidance Note").

#### **Management's Responsibility for Internal Financial Controls**

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone<sup>1</sup> financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

### **Meaning of Internal Financial Controls With reference to Standalone Financial Statements**

A Company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

### **Inherent Limitations of Internal Financial Controls With reference to Standalone financial statements**

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Faze Three Limited, established in 1985, is engaged in manufacturing and exports of home textiles products items viz. bathmats, rugs, blankets, throws, cushions, etc. It has seven manufacturing locations across Gujarat, Union territories (UT) of (Dadra and Nagar Haveli and Daman and Diu) DNHDD, Haryana and Maharashtra in India. The Company is a direct exporter to top retail store chains in USA, UK and Europe. The Company is a public listed company incorporated and domiciled in India and has its registered office in Dapada, Silvassa, UT of DNHDD. The Company's equity shares are listed on the Bombay Stock Exchange and National Stock Exchange.

**2. Significant accounting policies**

**(A) Statement of Compliance**

The Company's financial statements have been prepared in compliance with Indian Accounting Standards (the 'Ind AS') notified under Section 133 of the Companies Act, 2013 (the 'Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provisions of the Act. The accounting policies are applied consistently to all the periods presented in the financial statements.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities .

**(B) Basis of presentation**

The Balance sheet and the Statement of profit and loss are prepared and presented in the format prescribed in the Division II of Schedule III to the Act. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7, Statement of Cash Flows. The disclosure requirements with respect to items in the Balance sheet and Statement of profit and loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended.

The financial statements of the Company for the year ended March 31, 2023 were approved for issue in accordance with the resolution of the Board of Directors on May 23, 2023.

**(C) Basis of measurement**

The standalone financial statements have been prepared on a historical cost convention on accrual basis , except for the following assets and liabilities which have been measured at fair value or revalued amount:

- Land classified under property, plant and equipment at Fair value
- Derivative financial instruments,

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments),

The Company has prepared the financial statements on the basis that it will continue to operate as a going concern.

A historical cost is a measure of value used in accounting in which the value of an asset on the balance sheet is recorded at its original cost when acquired by the company.

**Fair Value Measurement** :- Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the entity.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Entity uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

**(D) Use of estimates**

The preparation of the financial statements requires management to exercise judgment and to make estimates and assumptions. These estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an on-going basis. Revision to accounting estimates are recognised in the period in which the estimate is revised if the revision affect only that period, or in the period of the revision and future periods if the revision affects both current and future period. The areas involving critical estimates or judgements are:

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

**Useful life of property, plant and equipment:**

The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value. Increasing an asset's expected life or its residual value would result in a reduced depreciation charge in the statement of profit and loss. The useful lives of the Company's assets are determined by management at the time the asset is acquired and reviewed at least annually for appropriateness. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

**Defined benefit obligations**

The cost of defined benefit gratuity plans is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

**Recognition of Deferred Tax Assets**

Deferred tax assets are recognised for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilised business loss and depreciation carryforwards and tax credits. Deferred tax assets are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilised

**Contingent liabilities**

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation in respect of which a reliable estimate can be made.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Contingent liabilities are disclosed in the notes.

**2.2 Property, plant and equipment**

Property, plant and equipment are stated at original cost inclusive of incidental expenses related to acquisition net of tax / duty credit availed, net of accumulated depreciation and accumulated impairment losses, if any. Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use. Subsequent expenditures are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for provisions are met.

Freehold Land and Leasehold land are carried at fair value based on periodic valuation by the external independent valuers. Valuations are performed with sufficient frequency to ensure that the carrying amount of a revalued asset does not differ materially from its fair value. An annual transfer from the revaluation surplus to retained earnings is made for the difference between depreciation based on the revalued carrying amount of the asset and depreciation based on the asset's original cost. Additionally, accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Upon disposal, any revaluation surplus relating to the particular asset being sold is transferred directly to retained earnings. Increase in the carrying amounts arising on revaluation of freehold and leasehold land are recognised, net of tax, in other comprehensive income and accumulated in reserves in shareholders equity.

Property, plant and equipment not ready for their intended use as on the balance sheet date are disclosed as "Capital work-in-progress". Such items are classified to the appropriate category of property, plant and equipment when completed and ready for their intended use. Advances given towards acquisition / construction of property, plant and equipment outstanding at each balance sheet date are disclosed as Capital Advances under "Other non-current assets".

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of the profit and loss when the asset is derecognised.

**Depreciation methods, estimated useful lives**

The Company depreciates property, plant and equipment using the straight line method over their estimated useful lives of assets which are determined based on technical parameters / assessment.

**Useful life of property, plant and equipment:**

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This re-assessment may result in change in depreciation and amortisation expense in future periods. The estimated useful lives of assets are as follows:

<b><u>Property, plant and equipment</u></b>	<b><u>Useful Lives</u></b>
Leasehold land	Lease period
Building	10-15 years
Plant & Machinery	2-15 years
Furniture and Fixtures	2-10 years
Office Equipment	2-8 years

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

Electrical Installations	2-20 years
Fire Hydrant Systems	15 years
Vehicles	8-10 years
Computers	2-5 years

Individual assets costing up to ` Five thousand are depreciated in full in the year of purchase.

The Company has adopted a policy to transfer from revaluation reserve to profit or loss, an amount equivalent to depreciation on account of gain in revaluation reserve recognised earlier, at every period end.

Based on technical assessment made by technical expert and management estimate, depreciates certain items of building, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of acquisition. An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit and loss.

The residual value of Property, plant and Equipment are within the limit specified in Schedule II (Part C) of Companies act 2013. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

### 2.3 Intangible Asset

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible assets purchased are measured at cost as at the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

Intangible assets consist of software licences. The estimated useful life of asset is as follows:

<u>Intangible assets</u>	<u>Useful Lives</u>
Software licences	6 Years

Intangible assets are amortised on a straight-line basis over the period of its economic useful life. Intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets.

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

## **2.4 Impairment of Non Financial Assets**

The Company assesses at each year end whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Company estimates the asset's recoverable amount and the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in Statement of Profit and Loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through Statement of Profit and Loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash in flows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

## **2.5 Investment in subsidiary**

Subsidiaries are entities that are controlled by the Company. The Company controls an entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the investee. Investments in subsidiaries are accounted at cost less impairment, if any.

## **2.6 Borrowing costs**

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

## **2.7 Foreign currency transactions**

### **Functional and presentation currency**

Items included in the standalone financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The standalone financial statements are presented in Indian National Rupee (INR), which is the Company's functional and presentation currency.

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

### **Transactions and balances**

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction. Gains/Losses arising out of fluctuation in foreign exchange rate between the transaction date and settlement date are recognised as income or expense in the period in which they arise in the Statement of Profit and Loss.

All monetary assets and liabilities in foreign currencies are restated at the year end at the exchange rate prevailing at the year end and the exchange differences are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

## **2.8 Revenue recognition**

### **A] Sale of goods**

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods and there are no unfulfilled obligations.

The Company considers, whether there are other promises in the contract in which there are separate performance obligations, to which a portion of the transaction price needs to be allocated.

In determining the transaction price for the sale of goods, the Company considers the effects of variable consideration, the existence of significant financing components, non-cash consideration, and consideration payable to the customer (if any).

### **B] Rendering of services:**

Revenues from services are recognised as and when services are rendered and on the basis of contractual terms with the parties. The performance obligation in respect of professional services is satisfied over a period of time and acceptance of the customer.

### **C] Rebate / Drawback of Taxes and Duties**

Revenue from export benefits arising from duty drawback scheme, merchandise export incentive scheme, Rebate of State and Central Taxes and Levies and Remission of Duties or Taxes on Export Products Scheme are recognised on export of goods in accordance with their respective underlying scheme at fair value of consideration received or receivable.

### **D] Other Income**

Interest income:

For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in the other income in the statement of profit and loss.

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

Other Incomes are recognised on accrual basis except financial instruments measured at amortised cost which are recognised using the effective interest rate (EIR).

Dividend income is recorded when the right to receive payment is established.

Rental income:

Lease agreements where the risks and rewards incident to the ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals are recognised on straight line basis as per the terms of the agreements in the statement of profit and loss.

### **E] Contract Balances**

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. A receivables represents the Company's right to an amount of consideration that is unconditional.

Contract Liability

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Trade Receivable

A trade receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

## **2.9 Taxes**

Tax expense comprises current income tax and deferred income tax and includes any adjustments related to past periods in current and / or deferred tax adjustments that may become necessary due to certain developments or reviews during the relevant period. Current and deferred taxes are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

### **(A) Current tax**

Current income tax is measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside the statement of profit and loss is recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

**(B) Deferred tax**

Deferred income tax is provided in full, using the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the year and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income, in which case, the current and deferred tax are also recognised in other comprehensive income.

**(C) Minimum Alternate Tax (MAT)**

Minimum Alternate Tax ('MAT') credit entitlement is recognized as a deferred tax asset if it is probable that MAT credit will reverse in the foreseeable future and taxable profit will be available against which the deferred tax asset can be utilised.

**2.10 Leases**

**The Company as a Lessee :**

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

**a) Right-of-use asset (ROU):**

The Company recognizes a right-of-use asset ("ROU") and a lease liability at the lease commencement date (i.e the date the underlying asset is available for use). The ROU is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset, less any lease incentives received.

The ROU Asset is subsequently depreciated using the straight-line method over the shorter of the lease term and the estimated useful life of the asset from the commencement date to the end of the lease term.

**b) Lease Liabilities**

At the commencement date of the lease, the entity recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the entity and payments of penalties for terminating the lease, if the lease term reflects the entity exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the entity uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Company presents ROU Asset separately and lease liabilities in 'Financial Liabilities' in the Balance Sheet.

**c) Short-term leases and leases of low-value assets**

The Company has elected not to recognise ROU Assets and lease liabilities for

- short term leases that have a lease term of 12 months or lower and
- Leases of low value assets with annual lease rental lesser than or equal to Rs.10 lakhs.

The Company recognises the lease payments associated with these leases as an expense over the lease term.

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

**d) Company as a lessor:**

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases

**2.11 Inventories**

Inventories are valued at the lower of cost and net realisable value.

Cost of raw materials, dyes and chemicals, packaging materials and stores and spare parts comprises cost of purchases on weighted average basis.

Cost of work-in progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity.

Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition.

Costs are assigned to individual items of inventory moving weighted average basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Slow and non-moving material, obsolesce, defective inventories are duly provided for and valued at actual cost or estimated net realisable value whichever is lower. Materials and supplies held for use in production of inventories are not written down if the finished products in which they will be used are expected to be sold at or above cost.

**2.12 Provisions, contingent liabilities and contingent assets**

**Provisions** :- Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provisions are discounted. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

**Contingent liabilities** :- Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

**Contingent Asset** :- A contingent asset is a possible asset arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognised till the realisation of the income is virtually certain. However, the same are disclosed in the financial statements where an inflow of economic benefit is possible.

### 2.13 Cash and cash equivalents & bank balances

Cash and cash equivalent in the balance sheet comprise cash at banks, cash on hand and fixed deposits with an original maturity of less than three months, which are subject to an insignificant risk of changes in value.

Bank Balances other than cash and cash equivalents in the balance sheet comprise of unpaid dividend accounts and fixed deposits with an original maturity of more than three months and less than twelve months, which are subject to an insignificant risk of changes in value.

For the purposes of the cash flow statement, cash and cash equivalents include balance with banks, cash on hand, cheques/ draft on hand and short-term deposits net of bank overdraft.

### 2.14 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### (A) Financial assets

##### (i) Initial recognition and measurement

At initial recognition, the Company measures a financial assets at its fair value and in the case of financial assets not recorded at fair value through profit or loss at transaction costs that are attributable to the acquisition of the financial asset. Transaction cost of financial assets carried at fair value through profit or loss is expensed in the Statement of Profit or Loss.

##### (ii) Classification and subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- a) at amortized cost; or
- b) at fair value through other comprehensive income; or
- c) at fair value through profit or loss.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Debt Instruments: Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments.

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost.

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

Interest income from these financial assets is included in finance income using the effective interest rate method (EIR).

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to Statement of Profit and Loss and recognized in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss: Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

Equity investments: All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument- by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

(iii) Impairment of financial assets

In accordance with Ind AS 109, Financial Instruments, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets that are measured at amortized cost and FVTOCI.

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

Life time ECLs are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the year end.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

In general, it is presumed that credit risk has significantly increased since initial recognition if the payment is more than 30 days past due.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the statement of profit and loss. In balance sheet ECL for financial assets measured at amortized cost is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

(iv) Derecognition of financial assets

A financial asset is derecognized only when

- a) the rights to receive cash flows from the financial asset is transferred or
- b) retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the financial asset is transferred then in that case financial asset is derecognized only if substantially all risks and rewards of ownership of the financial asset is transferred. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

**(B) Financial liabilities**

(i) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and at amortized cost, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

**Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

**Borrowings at amortised cost**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

**(iii) Derecognition**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss as finance costs.

**(C) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

**2.15 Employee benefits**

**Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

**Defined Contribution Plan**

Provident Fund: Contribution towards provident fund is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

Employee's State Insurance Scheme: Contribution towards employees' state insurance scheme is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

**Defined benefit plans**

Gratuity: The Company provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the other comprehensive income in the year in which they arise.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The estimated future payments which are denominated in a currency other than INR, are discounted using market yields determined by reference to high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

**2.16 Current Asset and Current Liability**

Current Asset – “An entity shall classify an asset as current when:

- (a) it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
- (b) it holds the asset primarily for the purpose of trading;
- (c) it expects to realise the asset within twelve months after the reporting period;
- (d) the asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. An entity shall classify all other assets as non-current.

Current Liability – “An entity shall classify a liability as current when:

- (a) it expects to settle the liability in its normal operating cycle;
- (b) it holds the liability primarily for the purpose of trading;

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

(c) the liability is due to be settled within twelve months after the reporting period; or

(d) it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification. An entity shall classify all other liabilities as non-current.”

## 2.17 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Earnings considered in ascertaining the Company's earnings per share is the net profit or loss for the year after deducting preference dividends and any attributable tax thereto for the year. The weighted average number of equity shares outstanding during the year and for all the years presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

## 2.18 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM)(Managing Director) of the Company. The Managing Director is responsible for allocating resources and assessing performance of the operating segments of the company.

During the period, entity was engaged in the business of home textile products, which is the only operating segment as per Ind AS 108.

## 2.19 Rounding off amounts

All amounts disclosed in standalone financial statements and notes have been rounded off to the nearest crores as per requirement of Schedule III of the Act, unless otherwise stated.

## 2.20 Recent Accounting Developments

Ministry of Corporate Affairs (“MCA”) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

**Ind AS 1 – Presentation of Financial Statements :** The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Company does not expect this amendment to have any significant impact in its financial statements.

**Ind AS 12 – Income Taxes :** The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope

Notes forming part of the Standalone Financial Statements for the year ended 31 March 2023

of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company is evaluating the impact, if any, in its financial statements.

**Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors:** The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements.

**34 Earnings per share**

Basic earnings per share amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the profit attributable to equity holders by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

	31 March 2023	31 March 2022
Profit attributable to equity holders	57.44	51.07
Weighted average number of shares outstanding during the year	2,43,19,000	2,43,19,000
Basic earnings per share (Rs.) (Equity share of Rs. 10 each)	23.62	21.00
Diluted earnings per share (Rs.) (Equity share of Rs. 10 each)	23.62	21.00

**35 Employee benefits**

**(A) Defined Contribution Plans**

	31 March 2023	31 March 2022
During the year, the Company has recognized the following amounts in the Statement of Profit and Loss		
Employers' Contribution to Provident Fund and Employers' State Insurance Corporation(Refer note 29)	2.43	2.13

**(B) Defined benefit plans**

The Company provides for gratuity for employees as per the Payment of Gratuity Act, 1972. The amount of gratuity shall be payable to an employee on the termination of employment after rendering continuous service for not less than five years, or on their superannuation or resignation. However, in case of death of an employee, the minimum period of five years shall not be required. The amount of gratuity payable on retirement / termination is the employee's last drawn basic salary per month computed proportionately for 15 days salary multiplied by the number of years of service completed. The gratuity plan is a funded plan administered by a separate fund that is legally separated from the entity,. The Company does not fully fund the liability and maintains the funding from time to time based on estimations of expected gratuity payments.

These plans typically expose the Company to the following actuarial risks:

**Investment risk** - The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

**Interest risk** - A fall in the discount rate, which is linked, to the G-Sec rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

**Salary risk** - The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

**Asset Liability matching risk** - The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

**Mortality risk** - Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

**Concentration risk** - Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

**Fair value hierarchy**

The following is the hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

**39 Financial risk management objectives and policies**

The Company is exposed to various financial risks. These risks are categorized into market risk, credit risk and liquidity risk. The Company's risk management is coordinated by the Board of Directors and focuses on securing long term and short term cash flows. The Company does not engage in trading of financial assets for speculative purposes.

**(A) Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include borrowings and derivative financial instruments.

**(i) Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company exposure to the risk of changes in market interest rates relates primarily to the Company's short-term debt obligations with floating interest rates.

The Company manages its interest rate risk by having a balanced portfolio of variable rate loans and borrowings.

	31 March 2023	31 March 2022
Variable rate borrowings	118.48	107.16

**Interest rate sensitivity**

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Increase/ decrease in basis points	Effect on profit before tax (` in Crs)
FY 2023	100 bps	1.18
FY 2022	100 bps	1.07

**(ii) Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company operating activities.

The Company is exposed to foreign currency risk arising mainly on export of finished goods and import of raw material. Foreign currency exposures are managed within approved policy parameters utilising forward contracts.

The carrying amounts of Company's foreign currency denominated financial assets and financial liabilities at the end of the reporting period are as follows:

Exposure to currency risk	31 March 2023		31 March 2022	
	INR	USD/EURO/ GBP	INR	USD/EURO/ GBP
Trade receivables (hedged)	88.00	1.07	60.95	0.81
Trade receivables (unhedged)	-	-	-	-
Capital Creditors (hedged)	-	-	-	-
Capital Creditors (unhedged)	0.44	0.00	0.81	0.01

**Foreign currency sensitivity**

The following table demonstrates the sensitivity to a reasonably possible change in the US dollar exchange rate (or any other material currency), with all other variables held constant, of the Company's profit before tax (due to changes in the fair value of monetary assets and liabilities).

The Company realises 90% of its sales in USD, based on the hedging policy followed by the Company in case of normal volatility in USD / INR, the following effect is estimated.

	Change in USD rate	Effect on profit before tax
2023		
USD / INR	0.50%	-
2022		
USD / INR	0.50%	-

**(B) Credit risk**

Credit risk is the risk that counterparty will not meet its obligations leading to a financial loss. The Company is exposed to credit risk arising from its operating (primarily trade receivables) and investing activities including deposits placed with banks, financial institutions and other corporate deposits. The Company establishes an allowance for impairment that represents its estimate of expected losses in respect of financial assets. Financial assets are classified into performing, under-performing and non-performing. All financial assets are initially considered performing and evaluated periodically for expected credit loss. A default on a financial asset is when there is a significant increase in the credit risk which is evaluated based on the business environment. The assets are written off when the Company is certain about the non-recovery.

**Trade Receivables:** The Company has an established credit policy and a credit review mechanism. The Company also covers certain category of its debtors through a credit insurance policy. In such case the insurance provider sets an individual credit limit and also monitors the credit risk. Management believes that the unimpaired amounts that are past due by more than 90 days are still collectible in full, based on historical payment behavior and analysis of customer credit risk.

Before accepting new customer, the Company has appropriate level of control procedures to assess the potential customer's credit quality. The credit-worthiness of its customers are reviewed based on their financial position, past experience and other relevant factors. The credit period provided by the Company to its customers generally ranges from 0-60 days. Outstanding customer receivables are reviewed periodically. Provision is made based on expected credit loss method or specific identification method. The credit risk related to the trade receivables is mitigated by taking security deposits / bank guarantee / letter of credit - as and where considered necessary, setting appropriate credit terms and by setting and monitoring internal limits on exposure to individual customers.

**Financial instruments and cash deposits:** The credit risk from balances / deposits with banks, other financial assets and current investments are managed in accordance with the Company's approved policy. Investments of surplus funds are made only with approved counterparties and within the limits assigned to each counterparties. The limits are assigned to mitigate the concentration risks. These limits are actively monitored by the Company.

**(C) Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as and when required. The Company manages the liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. The Company invests its surplus funds in bank fixed deposit and liquid schemes of mutual funds, which carry no/negligible mark to market risks.

The table below summarizes the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

## **INDEPENDENT AUDITOR'S REPORT**

**To the Members of Faze Three Limited**

**Report on the Audit of the Consolidated Financial Statements**

### **Opinion**

We have audited the accompanying consolidated financial statements of Faze Three Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2023, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on consideration of report of other auditor on separate financial statements and on the other financial information of subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of their consolidated state of affairs of the Group as at March 31, 2023, of consolidated profit and other comprehensive income, consolidated changes in equity and its consolidated cash flows for the year then ended.

### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by Institute of Chartered Accountant of India ("ICAI"), and the relevant provisions of the Act and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained and on consideration of audit report of other auditor referred to in paragraph (a) of the "Other Matters" section below, is sufficient and appropriate to provide a basis for our opinion.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended March 31, 2023. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report.

### **Information Other than the Consolidated Financial Statements and Auditor's Report Thereon**

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the Director's report, Management Discussion and Analysis Report, and Corporate Governance Report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing ("SAs") will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

We give in "Annexure A" a detailed description of Auditor's responsibilities for Audit of the Consolidated Financial Statements.

### Other Matters

- a. We did not audit the financial statements of a subsidiary, whose financial statements reflect total assets of Rs. 6.94 Crores as at March 31, 2023, total revenues of Rs. 2.61 Crores and net cash flows amounting to Rs. 0.01 Crores for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditor whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiary, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary, is based solely on the reports of the other auditor.
  
- b. We did not audit the financial information of a subsidiary whose financial information reflect total assets of Rs.10.85 Crores as at March 31, 2023, total revenues of Rs.14.92 Crores and net cash flows amounting to Rs. (0.23) Crores for the year ended on that date, as considered in the consolidated financial statements. This financial information are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, and our report in terms of sub-section (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiary, is based solely on such unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, this financial information is not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditor and the financial information certified by the Management.

### Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
  
  - b.

In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors including daily back-up of books of account and other books and papers maintained in electronic mode. However, the servers for the back-up of books of account and other books and papers of the Holding Company/Group located in India maintained in electronic mode are physically located outside India.
  
  - c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flow dealt with by this Report are in agreement with the

relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

## **ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT ON EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF FAZE THREE LIMITED**

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entity included in the consolidated financial statements, which have been audited by other auditor, such other auditor remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## **ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF FAZE THREE LIMITED**

[Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report of even date to the Members of Faze Three Limited on the consolidated Financial Statements for the year ended March 31, 2023]

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

#### **Opinion**

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2023, we have audited the internal financial controls reference to consolidated financial statements of Faze Three Limited (hereinafter referred to as "the Holding Company") and its subsidiary company (the Holding Company and its subsidiary together referred to as "the Group"), which are companies incorporated in India, as of that date.

In our opinion, and to the best of our information and according to the explanations given to us, the Holding Company and its subsidiary company have, in all material respects, an adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2023, based on the internal financial controls with reference to consolidated financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("the ICAI").

#### **Management's Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding company and its subsidiary company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to consolidated financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Holding company and its subsidiary company, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note

require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary company which are companies incorporated in India.

#### **Meaning of Internal Financial Controls With Reference to Consolidated Financial Statements**

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

#### **Inherent Limitations of Internal Financial Controls With Reference to Consolidated Financial Statements**

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Other Matter**

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements insofar as it relates to one subsidiary company, which is a company incorporated in India, is based on the corresponding reports of the auditor of such company incorporated in India.

 Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023
 

---

**1. General Information**

Faze Three Limited (the "Company") and its subsidiaries (collectively, the Group), are engaged in manufacturing and exports of home textiles products items viz. bathmats, rugs, blankets, throws, cushions, patio mats etc. It has seven manufacturing locations across Gujarat, Union territories (UT) of (Dadra and Nagar Haveli and Daman and Diu) DNHDD, Haryana and Maharashtra in India. The Company is a direct exporter to top retail store chains in USA, UK and Europe. The Company is a public listed company incorporated and domiciled in India and has its registered office in Dapada, Silvassa, UT of DNHDD. The Company's equity shares are listed on the Bombay Stock Exchange and National Stock Exchange.

**2. Significant accounting policies****(A) Statement of Compliance**

These consolidated Ind AS financial statements have been prepared in compliance with Indian Accounting Standards (the 'Ind AS') notified under Section 133 of the Companies Act, 2013 (the 'Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provisions of the Act. The accounting policies are applied consistently to all the periods presented in the financial statements.

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities .

**(B) Basis of presentation**

The Balance sheet and the Statement of profit and loss are prepared and presented in the format prescribed in the Division II of Schedule III to the Act. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7, Statement of Cash Flows. The disclosure requirements with respect to items in the Balance sheet and Statement of profit and loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended.

The consolidated financial statements for the year ended March 31, 2023 were approved for issue in accordance with the resolution of the Board of Directors on May 23, 2023.

**(C) Basis of measurement**

The consolidated financial statements have been prepared on a historical cost convention on accrual basis , except for the following assets and liabilities which have been measured at fair value or revalued amount:

- Land classified under property, plant and equipment at Fair value
- Derivative financial instruments,
- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments),

The Group has prepared the financial statements on the basis that it will continue to operate as a going concern.

A historical cost is a measure of value used in accounting in which the value of an asset on the balance sheet is recorded at its original cost when acquired by the Group.

## Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023

**Fair Value Measurement** :- Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the entity.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Entity uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

### (D) Use of estimates

The preparation of the consolidated financial statements requires management to exercise judgment and to make estimates and assumptions. These estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an on-going basis. Revision to accounting estimates are recognised in the period in which the estimate is revised if the revision affect only that period, or in the period of the revision and future periods if the revision affects both current and future period. The areas involving critical estimates or judgements are:

#### Useful life of property, plant and equipment:

The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value. Increasing an asset's expected life or its residual value would result in a reduced depreciation charge in the statement of profit and loss. The useful lives of the Group's assets are determined by management at the time the asset is acquired and reviewed at least annually for appropriateness. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

#### Defined benefit obligations

The cost of defined benefit gratuity plans is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023

#### **Recognition of Deferred Tax Assets**

Deferred tax assets are recognised for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilised business loss and depreciation carryforwards and tax credits. Deferred tax assets are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilised

#### **Contingent liabilities**

A provision is recognised when the Group has a present obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation in respect of which a reliable estimate can be made.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Contingent liabilities are disclosed in the notes.

### **(E) Basis of Consolidation**

#### **Subsidiaries**

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity where the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has :

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

## Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023

---

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent group, i.e., year ended on 31 March. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intergroup transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated balance sheet, consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

### **2.2 Property, plant and equipment**

Property, plant and equipment are stated at original cost inclusive of incidental expenses related to acquisition net of tax / duty credit availed, net of accumulated depreciation and accumulated impairment losses, if any. Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use. Subsequent expenditures are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for provisions are met.

Freehold Land and Leasehold land are carried at fair value based on periodic valuation by the external independent valuers. Valuations are performed with sufficient frequency to ensure that the carrying amount of a revalued asset does not differ materially from its fair value. An annual transfer from the revaluation surplus to retained earnings is made for the difference between depreciation based on the revalued carrying amount of the asset and depreciation based on the asset's original cost. Additionally, accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Upon disposal, any revaluation surplus relating to the particular asset being sold is transferred directly to retained earnings. Increase in the carrying amounts arising on revaluation of

Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023

freehold and leasehold land are recognised, net of tax, in other comprehensive income and accumulated in reserves in shareholders equity.

Property, plant and equipment not ready for their intended use as on the balance sheet date are disclosed as “Capital work-in-progress”. Such items are classified to the appropriate category of property, plant and equipment when completed and ready for their intended use. Advances given towards acquisition / construction of property, plant and equipment outstanding at each balance sheet date are disclosed as Capital Advances under “Other non-current assets”.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of the profit and loss when the asset is derecognised.

**Depreciation methods, estimated useful lives**

The Group depreciates property, plant and equipment using the straight line method over their estimated useful lives of assets which are determined based on technical parameters / assessment.

**Useful life of property, plant and equipment:**

The Group reviews the useful life of property, plant and equipment at the end of each reporting period. This re-assessment may result in change in depreciation and amortisation expense in future periods. The estimated useful lives of assets are as follows:

<b><u>Property, plant and equipment</u></b>	<b><u>Useful Lives</u></b>
Leasehold land	Lease period
Building	10-15 years
Plant & Machinery	2-15 years
Furniture and Fixtures	2-10 years
Office Equipment	2-8 years
Electrical Installations	2-20 years
Fire Hydrant Systems	15 years
Vehicles	8-10 years
Computers	2-5 years

Individual assets costing up to ` Five thousand are depreciated in full in the year of purchase.

The Group has adopted a policy to transfer from revaluation reserve to profit or loss, an amount equivalent to depreciation on account of gain in revaluation reserve recognised earlier, at every period end.

Based on technical assessment made by technical expert and management estimate, depreciates certain items of building, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of acquisition. An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit and loss.

Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023

The residual value of Property, plant and Equipment are within the limit specified in Schedule II (Part C) of Companies act 2013. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

### 2.3 Intangible Asset

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible assets purchased are measured at cost as at the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

Intangible assets consist of software licences. The estimated useful life of asset is as follows:

<u>Intangible assets</u>	<u>Useful Lives</u>
Software licences	6 Years

Intangible assets are amortised on a straight-line basis over the period of its economic useful life. Intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets.

### 2.4 Impairment of Non Financial Assets

The Group assesses at each year end whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Group estimates the asset's recoverable amount and the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in Statement of Profit and Loss and reflected in an allowance account. When the Group considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through Statement of Profit and Loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash in flows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

### 2.5 Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023

## 2.6 Foreign currency transactions

### Functional and presentation currency

Items included in the consolidated financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Indian National Rupee (INR), which is the Group's functional and presentation currency.

### Transactions and balances

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction. Gains/Losses arising out of fluctuation in foreign exchange rate between the transaction date and settlement date are recognised as income or expense in the period in which they arise in the Statement of Profit and Loss.

All monetary assets and liabilities in foreign currencies are restated at the year end at the exchange rate prevailing at the year end and the exchange differences are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

### Group Companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at the date of that balance sheet
- income and expenses are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- All resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

## 2.7 Revenue recognition

### A] Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods and there are no unfulfilled obligations.

### Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023

The Group considers, whether there are other promises in the contract in which there are separate performance obligations, to which a portion of the transaction price needs to be allocated.

In determining the transaction price for the sale of goods, the Group considers the effects of variable consideration, the existence of significant financing components, non-cash consideration, and consideration payable to the customer (if any).

#### **B] Rendering of services:**

Revenues from services are recognised as and when services are rendered and on the basis of contractual terms with the parties. The performance obligation in respect of professional services is satisfied over a period of time and acceptance of the customer.

#### **C] Rebate / Drawback of Taxes and Duties**

Revenue from export benefits arising from duty drawback scheme, merchandise export incentive scheme, Rebate of State and Central Taxes and Levies and Remission of Duties or Taxes on Export Products Scheme are recognised on export of goods in accordance with their respective underlying scheme at fair value of consideration received or receivable.

#### **D] Other Income**

Interest income:

For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in the other income in the statement of profit and loss.

Other Incomes are recognised on accrual basis except financial instruments measured at amortised cost which are recognised using the effective interest rate (EIR).

Dividend income is recorded when the right to receive payment is established.

Rental income:

Lease agreements where the risks and rewards incident to the ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals are recognised on straight line basis as per the terms of the agreements in the statement of profit and loss.

#### **E] Contract Balances**

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. A receivables represents the Group's right to an amount of consideration that is unconditional.

Contract Liability

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

Trade Receivable

A trade receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

## 2.8 Taxes

Tax expense comprises current income tax and deferred income tax and includes any adjustments related to past periods in current and / or deferred tax adjustments that may become necessary due to certain developments or reviews during the relevant period. Current and deferred taxes are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

### (A) Current tax

Current income tax is measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside the statement of profit and loss is recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

### (B) Deferred tax

Deferred income tax is provided in full, using the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the year and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income, in which case, the current and deferred tax are also recognised in other comprehensive income.

### (C) Minimum Alternate Tax (MAT)

Minimum Alternate Tax ('MAT') credit entitlement is recognized as a deferred tax asset if it is probable that MAT credit will reverse in the foreseeable future and taxable profit will be available against which the deferred tax asset can be utilised.

## 2.9 Leases

### The Group as a Lessee :

The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (i) the contract involves the use of an identified asset (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

#### a) Right-of-use asset (ROU):

The Group recognizes a right-of-use asset (“ROU”) and a lease liability at the lease commencement date (i.e the date the underlying asset is available for use). The ROU is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset, less any lease incentives received.

The ROU Asset is subsequently depreciated using the straight-line method over the shorter of the lease term and the estimated useful life of the asset from the commencement date to the end of the lease term.

#### b) Lease Liabilities

At the commencement date of the lease, the entity recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the entity and payments of penalties for terminating the lease, if the lease term reflects the entity exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the entity uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Group presents ROU Asset separately and lease liabilities in ‘Financial Liabilities’ in the Balance Sheet.

#### c) Short-term leases and leases of low-value assets

The Group has elected not to recognise ROU Assets and lease liabilities for

- short term leases that have a lease term of 12 months or lower and
- Leases of low value assets with annual lease rental lesser than or equal to Rs.10 lakhs.

The Group recognises the lease payments associated with these leases as an expense over the lease term.

---

 Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023
 

---

**d) Group as a lessor:**

Leases for which the Group is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases

**2.10 Inventories**

Inventories are valued at the lower of cost and net realisable value.

Cost of raw materials, dyes and chemicals, packaging materials and stores and spare parts comprises cost of purchases on weighted average basis.

Cost of work-in progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity.

Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition.

Costs are assigned to individual items of inventory moving weighted average basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Slow and non-moving material, obsolesce, defective inventories are duly provided for and valued at actual cost or estimated net realisable value whichever is lower. Materials and supplies held for use in production of inventories are not written down if the finished products in which they will be used are expected to be sold at or above cost.

**2.11 Provisions, contingent liabilities and contingent assets**

**Provisions** :- Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provisions are discounted. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

**Contingent liabilities** :- Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

**Contingent Asset** :- A contingent asset is a possible asset arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. Contingent assets are not recognised till the realisation of the income is virtually

certain. However, the same are disclosed in the financial statements where an inflow of economic benefit is possible.

### 2.12 Cash and cash equivalents & bank balances

Cash and cash equivalent in the balance sheet comprise cash at banks, cash on hand and fixed deposits with an original maturity of less than three months, which are subject to an insignificant risk of changes in value.

Bank Balances other than cash and cash equivalents in the balance sheet comprise of unpaid dividend accounts and fixed deposits with an original maturity of more than three months and less than twelve months, which are subject to an insignificant risk of changes in value.

For the purposes of the cash flow statement, cash and cash equivalents include balance with banks, cash on hand, cheques/ draft on hand and short-term deposits net of bank overdraft.

### 2.13 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### (A) Financial assets

##### (i) Initial recognition and measurement

At initial recognition, the Group measures a financial assets at its fair value and in the case of financial assets not recorded at fair value through profit or loss at transaction costs that are attributable to the acquisition of the financial asset. Transaction cost of financial assets carried at fair value through profit or loss is expensed in the Statement of Profit or Loss.

##### (ii) Classification and subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- a) at amortized cost; or
- b) at fair value through other comprehensive income; or
- c) at fair value through profit or loss.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Debt Instruments: Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments.

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method (EIR).

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains

Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023

or losses, interest revenue and foreign exchange gains and losses which are recognized in Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized

in OCI is reclassified from equity to Statement of Profit and Loss and recognized in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss: Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

Equity investments: All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument- by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

(iii) Impairment of financial assets

In accordance with Ind AS 109, Financial Instruments, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets that are measured at amortized cost and FVTOCI.

For recognition of impairment loss on financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

Life time ECLs are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the year end.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

In general, it is presumed that credit risk has significantly increased since initial recognition if the payment is more than 30 days past due.

---

 Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023
 

---

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the statement of profit and loss. In balance sheet ECL for financial assets measured at amortized cost is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the Group does not reduce impairment allowance from the gross carrying amount.

(iv) Derecognition of financial assets

A financial asset is derecognized only when

- a) the rights to receive cash flows from the financial asset is transferred or
- b) retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the financial asset is transferred then in that case financial asset is derecognized only if substantially all risks and rewards of ownership of the financial asset is transferred. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

**(B) Financial liabilities**

(i) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and at amortized cost, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

**Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

**Borrowings at amortised cost**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

---

 Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023
 

---

**(iii) Derecognition**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or

modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss as finance costs.

**(C) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

**2.14 Employee benefits****Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

**Defined Contribution Plan**

Provident Fund: Contribution towards provident fund is made to the regulatory authorities, where the Group has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Group does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

Employee's State Insurance Scheme: Contribution towards employees' state insurance scheme is made to the regulatory authorities, where the Group has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Group does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

**Defined benefit plans**

Gratuity: The Group provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the other comprehensive income in the year in which they arise.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The estimated future payments which are denominated in a currency other than INR, are discounted using market yields determined by reference to high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation.

### Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

#### 2.15 Current Asset and Current Liability

Current Asset – “An entity shall classify an asset as current when:

- (a) it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
- (b) it holds the asset primarily for the purpose of trading;
- (c) it expects to realise the asset within twelve months after the reporting period;
- (d) the asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. An entity shall classify all other assets as non-current.

Current Liability – “An entity shall classify a liability as current when:

- (a) it expects to settle the liability in its normal operating cycle;
- (b) it holds the liability primarily for the purpose of trading;
- (c) the liability is due to be settled within twelve months after the reporting period; or
- (d) it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification. An entity shall classify all other liabilities as non-current.”

#### 2.16 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Earnings considered in ascertaining the Group's earnings per share is the net profit or loss for the year after deducting preference dividends and any attributable tax thereto for the year. The weighted average number of equity shares outstanding during the year and for all the years presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

#### 2.17 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM)(Managing Director) of the Group. The Managing Director is responsible for allocating resources and assessing performance of the operating segments of the Group.

Notes forming part of the Consolidated Financial Statements for the year ended 31 March 2023

During the period, the Group was engaged in the business of home textile products, which is the only operating segment as per Ind AS 108.

**2.18 Rounding off amounts**

All amounts disclosed in consolidated financial statements and notes have been rounded off to the nearest crores as per requirement of Schedule III of the Act, unless otherwise stated.

**2.20 Recent Accounting Developments**

Ministry of Corporate Affairs (“MCA”) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

**Ind AS 1 – Presentation of Financial Statements :** The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Company does not expect this amendment to have any significant impact in its financial statements.

**Ind AS 12 – Income Taxes :** The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company is evaluating the impact, if any, in its financial statements.

**Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors:** The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements.

**34 Earnings per share**

Basic earnings per share amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the profit attributable to equity holders by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

	31 March 2023	31 March 2022
Profit attributable to equity holders	58.30	51.08
Weighted average number of shares outstanding during the year	2,43,19,000	2,43,19,000
Basic earnings per share (Rs.) (Equity share of Rs.10 each)	23.97	21.00
Diluted earnings per share (Rs.) (Equity share of Rs.10 each)	23.97	21.00

**35 Employee benefits****(A) Defined Contribution Plans**

During the year, the Group has recognized the following amounts in the Statement of Profit and Loss

	31 March 2023	31 March 2022
Employers' Contribution to Provident Fund and Employers' State Insurance Corporation(Refer note 29)	2.43	2.13

**(B) Defined benefit plans**

The Group provides for gratuity for employees as per the Payment of Gratuity Act, 1972. The amount of gratuity shall be payable to an employee on the termination of employment after rendering continuous service for not less than five years, or on their superannuation or resignation. However, in case of death of an employee, the minimum period of five years shall not be required. The amount of gratuity payable on retirement / termination is the employee's last drawn basic salary per month computed proportionately for 15 days salary multiplied by the number of years of service completed. The gratuity plan is a funded plan administered by a separate fund that is legally separated from the entity. The Group does not fully fund the liability and maintains the funding from time to time based on estimations of expected gratuity payments.

These plans typically expose the Group to the following actuarial risks:

**Investment risk** - The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

**Interest risk** - A fall in the discount rate, which is linked, to the G-Sec rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

**Salary risk** - The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

**Asset Liability matching risk** - The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

**Mortality risk** - Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

**Concentration risk** - Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance group's have to follow regulatory guidelines.

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out at 31 March 2023 by M/S K. A. Pandit Consultants & Actuaries. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

**Fair value hierarchy**

The following is the hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs)

**39 Financial risk management objectives and policies**

The Group is exposed to various financial risks. These risks are categorized into market risk, credit risk and liquidity risk. The Group's risk management is coordinated by the Board of Directors and focuses on securing long term and short term cash flows. The Group does not engage in trading of financial assets for speculative purposes.

**(A) Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include borrowings and derivative financial instruments.

**(i) Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group exposure to the risk of changes in market interest rates relates primarily to the Group's short-term debt obligations with floating interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings.

	31 March 2023	31 March 2022
Variable rate borrowings	118.48	107.16

**Interest rate sensitivity**

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Increase/ decrease in basis points	Effect on profit before tax (Rs. in Crs)
FY 2023	100 bps	1.18
FY 2022	100 bps	1.07

**(ii) Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group operating activities.

The Group is exposed to foreign currency risk arising mainly on export of finished goods and import of raw material. Foreign currency exposures are managed within approved policy parameters utilising forward contracts.

The carrying amounts of group's foreign currency denominated financial assets and financial liabilities at the end of the reporting period are as follows:

Exposure to currency risk	31 March 2023		31 March 2022	
	INR	USD/EURO/ GBP	INR	USD/EURO/ GBP
Trade receivables (hedged)	88.00	1.07	60.95	0.81
Trade receivables (unhedged)	-	-	-	-
Capital Creditors (hedged)	-	-	-	-
Capital Creditors (unhedged)	0.44	0.00	0.81	0.01

**Foreign currency sensitivity**

The following table demonstrates the sensitivity to a reasonably possible change in the US dollar exchange rate (or any other material currency), with all other variables held constant, of the Group's profit before tax (due to changes in the fair value of monetary assets and liabilities).

The Group realises 90% of its sales in USD, based on the hedging policy followed by the Group in case of normal volatility in USD / INR, the following effect is estimated.

	Change in USD rate	Effect on profit before tax
2023 USD / INR	0.50%	-
2022 USD / INR	0.50%	-

**(B) Credit risk**

Credit risk is the risk that counterparty will not meet its obligations leading to a financial loss. The Group is exposed to credit risk arising from its operating (primarily trade receivables) and investing activities including deposits placed with banks, financial institutions and other corporate deposits. The Group establishes an allowance for impairment that represents its estimate of expected losses in respect of financial assets. Financial assets are classified into performing, under-performing and non-performing. All financial assets are initially considered performing and evaluated periodically for expected credit loss. A default on a financial asset is when there is a significant increase in the credit risk which is evaluated based on the business environment. The assets are written off when the Group is certain about the non-recovery.

**Trade Receivables:** The Group has an established credit policy and a credit review mechanism. The Group also covers certain category of its debtors through a credit insurance policy. In such case the insurance provider sets an individual credit limit and also monitors the credit risk. The concentration of credit risk arising from trade receivables is limited due to large customer base. Management believes that the unimpaired amounts that are past due by more than 90 days are still collectible in full, based on historical payment behavior and analysis of customer credit risk.

Before accepting new customer, the Group has appropriate level of control procedures to assess the potential customer's credit quality. The credit-worthiness of its customers are reviewed based on their financial position, past experience and other relevant factors. The credit period provided by the Group to its customers generally ranges from 0-60 days. Outstanding customer receivables are reviewed periodically. Provision is made based on expected credit loss method or specific identification method. The credit risk related to the trade receivables is mitigated by taking security deposits / bank guarantee / letter of credit - as and where considered necessary, setting appropriate credit terms and by setting and monitoring internal limits on exposure to individual customers.

**Financial instruments and cash deposits:** The credit risk from balances / deposits with banks, other financial assets and current investments are managed in accordance with the Group's approved policy. Investments of surplus funds are made only with approved counterparties and within the limits assigned to each counterparties. The limits are assigned to mitigate the concentration risks. These limits are actively monitored by the Group.

**(C) Liquidity risk**

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as and when required. The Group manages the liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. The Group invests its surplus funds in bank fixed deposit and liquid schemes of mutual funds, which carry no/negligible mark to market risks.

The table below summarizes the maturity profile of the Group's financial liabilities based on contractual undiscounted payments
